Advancing Equality Pay Gap Update

Committee Personnel

Date of meeting 25 April 2025

Date of report 2 April 2025

Report by Director of Finance & Corporate Support

1. Object of report

To provide the Personnel Committee with an update on pay gap information contained within SPT's Advancing Equality Pay Gap Update 2025 published in March 2025 and can be accessed at: <u>https://www.spt.co.uk/media/af5ovus5/spt_advancing-equality-pay-gap-update-2025_janice-morgan.pdf</u>

2. Background to report

The gender pay gap is the difference between men and women's average hourly earnings and is not the same as unequal pay. The UK average gender pay gap figure is 13.1% and varies considerably across sectors. If there is an unequal distribution of people with one protected characteristic throughout an organisation this may in itself lead to a pay gap, for example, if more men than women are employed in senior roles and more women than men employed in junior roles this will result in a gender pay gap, however this does not necessarily indicate that this is because of pay discrimination.

The Regulations require SPT to publish data on full pay relevant employees which means that employees who received less than full pay because of taking leave, such as those receiving statutory maternity pay or reduced sick pay, or who were employed for only part of the year, are excluded from the analysis.

3. Current position

All SPT staff were invited to complete an equal opportunities monitoring survey in the autumn of 2024 which increased the amount of equalities information held. This data forms the basis of the analysis. However, as some staff chose to respond 'prefer not to say' and others did not provide any data at all, some of the sample sizes in the analysis are small and therefore represent a subset of SPT's overall headcount.

Full details can be seen in the analysis attached at Appendix 1 which is based on data for the year to 31 December 2024, thus ensuring it is consistent with SPT's bi-annual cycle of reporting. In line with the Equality and Human Rights Commission (EHRC) guidance, the analysis focuses on occupational and vertical segregation data for the following groups:

- i. men and women;
- ii. employees who are disabled and employees who are not; and
- iii. employees who fall into a minority ethnic group and employees who do not.

SPT published its Advancing Equality Pay Gap Update in March 2025 which reported that the gender pay gap had closed from 15.3% in the 2023 report to 11.92% when comparing overall earnings including allowances. As a result of historic labour market patterns significantly more men than women work in technical roles that attract shift and weekend hour allowances for working unsociable hours.

4. Committee action

The Committee is asked to note the attached "Advancing Equality Pay Gap Update" at Appendix 1.

5. Consequences

Policy consequences	None directly.
Legal consequences	None directly.
Financial consequences	None directly.
Personnel consequences	None directly.
Equalities consequences	None envisaged.
Risk consequences	SPT will continue to promote equality of opportunity and continually monitor the gender pay gap.
Climate Change, Adaptation & Carbon Consequences	None directly.

APPENDIX 1 UPDATE FROM 2023 REPORT

Equality Report - Pay Gap Information

This report provides detailed analysis to supplement that published in SPT's Advancing Equality 2025 report in line with the Equality Act 2010 (Specific Duties) (Scotland) Regulations 2012.

The gender pay gap is the difference between men and women's average hourly earnings and is not the same as unequal pay. The UK average figure, across all employees, has reduced from 14.9% in October 2022 to 13.1% as reported by the Office for National Statistics in April 2024 and varies considerably across sectors. If there is an unequal distribution of people with one protected characteristic throughout an organisation this may in itself lead to a pay gap; for example, if more men than women are employed in senior roles and more women than men employed in junior roles this will result in a gender pay gap. However, this does not necessarily indicate that this is because of pay discrimination. This update focuses on occupational and vertical segregation data for the following groups:

- i. men and women;
- ii. employees who are disabled and employees who are not; and
- iii. employees who fall into a minority ethnic group and employees who do not.

SPT's gender pay gap has closed from 15.3% in 2022 to 11.92% in 2024. The report is based on data for the year to 31 December 2024. The Regulations require SPT to publish data on full year pay relevant employees which means that employees who received less than full pay due to leave, such as those receiving statutory maternity pay or reduced sick pay, or who were employed for only part of the year, are excluded. As a result, the sample size is 316.

All SPT staff were invited to complete an equal opportunities monitoring survey in November 2024 which increased the amount of equalities information held. This data forms the basis of this analysis. However, some staff chose to 'prefer not to say' and others did not provide any data and as a result, some of the sample sizes in this analysis are quite limited and are substantially smaller than our headcount. This will have an effect on the overall figures.

1. OCCUPATIONAL SEGREGATION

SPT employs a wide range of role types. For the purposes of this occupational segregation analysis, all roles have been categorised into one of five broad groups: Administrative (Admin), Engineering & Maintenance (E&M), Operations (Ops - Customer-Facing Staff), Professional (Prof) and Strategy (Chief Officials) roles.

The following tables provide details of the average hourly base pay rate, the average pay rate including allowances and the respective percentage pay gap for each occupational group against 3 protected characteristics Disability, Ethnicity and Gender.

Category	Average Hourly rate base pay only	Average Hourly including allowances	Number	
Admin - Disabled	£20.30	£21.46	11	
Admin - No Disability	£20.96	£21.53	48	
% gap	-3.15%	0.33%		
E&M - Disabled	£21.43	£30.53	11	
E&M - No Disability	£21.84	£28.29	72

All staff - Disabled	£21.89	£25.16	39	
All staff - No Disability	£23.45	£26.20	263	
% gap	-6.65%	-3.97%		

1.1. Table 1: By Disability %

Note: Of the 316 full pay relevant employees, 302 responded confirming their disability status, 263 have no disability and 39 confirming they have a disability. 11 employees preferred not to say while 3 employees chose not to provide any data.

All staff – Male	£23.17	£26.94	223
% gap	-0.39%	-11.92%	

Note: There are no women in Engineering and Maintenance roles whilst men are employed at all levels including the lower technical grades many of which attract allowances for shift working.

2. VERTICAL SEGREGATION

All roles are allocated to a grade structure based upon job evaluation and are aligned to SPT pay scales. In order to produce meaningful information, for the purposes of this analysis several broadly equivalent grades have been grouped together.

The following tables provide details of the average hourly base pay rate, the average pay rate including allowances and the respective percentage pay gap for each vertical grouping of staff based on 3 protected characteristics Disability, Ethnicity and Gender. As before the sample sizes will vary depending upon the number of employees who provided data against each of these characteristics.

Category	Average Hourly rate base pay only	Average Hourly rate including allowances	Number
Disability	£14.94	£16.93	7
No Disability	£14.82	£17.06	32

All staff in sample	£14.85	£17.01	40

2.1. Table 4 - Grades A & B

Note: Gender pay gap widens significantly when including allowances as although both men and women work shifts in the role of Bus Station Regulator which attracts a separate shift allowance, there is a significantly higher number of men employed in this position.

Category	Average Hourly rate base pay only	Average Hourly rate including allowances	Number
Disability	£16.63	£17.44	5
No Disability	£16.80	£18.95	58

All staff in sample	£16.83	£18.94	68

2.2. Table 5 - Grade C, Infrastructure, Service Delivery Officer 1 and Technical 2 & 3 Grades

Note: Gender pay gap widens significantly when including allowances. Both men and women work shifts. Men and women are employed in customer-facing roles as Service Delivery Assistants (Stations) where allowances are consolidated into base pay. There are currently no women employed within the Infrastructure and Technical 2/3 grades within Engineering and Maintenance which attract separate shift allowances.

Category	Average Hourly rate base pay only	Average Hourly rate including allowances	Number
Disability	£19.77	£26.64	12
No Disability	£19.15	£24.62	59
% gap	3.13%	7.58%	
Female	£18.98	£22.08	14
Male	£19.37	£25.89	61

% gap	-2.54%	-8.74%	
All staff in sample	£19.30	£25.18	75

2.3. Table 6 - Service Delivery Officer 2 and Technical 4 Grades

Note: As in table 5, the gender pay gap widens significantly when including allowances. Both men and women work shifts. Men and women are employed in customer-facing roles as Service Delivery Officers (Driving & Stations) where allowances are consolidated into base pay. There are currently no women employed within the Technical 4 grade within Engineering and Maintenance which attract separate shift allowances.

2.4. Table 7 - Grade D, Technical 5 & 6 Grades

Category	Average Hourly rate base pay only	Average Hourly rate including allowances	Number

White	£23.93	£27.80	44
% gap	-9.24%	-21.87%	
All staff in sample	£23.88	£27.66	45

Note: As in tables 5 and 6, the gender pay gap widens significantly when including allowances as many more men than women work within the Technical 5/6 grades within Engineering and Maintenance which attract separate shift allowances.

2.5. Table 8 - Grade E
